### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Vergeest in U.S. Patent No. 6,246,026 discloses laser cutting an optical fiber. Tasuki in Japan Patent No. 11-77,354 discloses laser cutting an optical fiber. Magota in Japan Patent No. 4-178,286 discloses using a square mask in a laser beam machine. Osborne In WO 02/034452, published 2 May 2002, discloses laser cutting an optic fiber after passing the laser beam through a rectangular mask (e.g. see page 18, lines 21-22) and notes that similar masks could be used (e.g. see the last four lines on page 23). There is no motivation to adapt the Osborne reference with the teachings of the square mask of Magota. Furthermore, none of the references of record shows, teaches or suggests fixing the optical fiber "in a cylindrical capillary formed to be flat on the side to be irradiated with the laser beam" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geoffrey S Evans whose telephone number is (571)-272-1174. The examiner can normally be reached on Mon-Fri 6:30AM to 4:00 PM, alternate Fridays off.
